Features that our Cookzilla supports:

- Login/Register: authenticate the user before accessing specific routes
- search for recipes that have a particular tag and/or a given number of stars
- display relevant information about the recipe, including the description, the steps in order, etc
- Post recipe
- **Post a review**
- **Post an event for a group that the creator belongs to**
- **RSVP to the event that the user belongs to**
- **Convert units in a recipe**
- **Setting a preferred unit**
- **More complex searches**
